

# Product Quick Info

**NEW**

**PROLINK**  
Conveyor and processing belts

**CM 50/70 S5.1**

## Applications

- Spiral freezers
- Spiral coolers
- Spiral provers
- Spiral driers
- Packaging sections
- Conveying frozen goods

## Advantages

- Increasing the load-bearing properties of the curve with asymmetrical reinforcement
- Eyelets an ideal shape for even distribution of load
- Increase in the surface area to support the inside radius
- Improved features mean greater resistance to fatigue
- Module length adjustable to modify curve's radius

## Basic technical data

Material	POM,	PP
Max. curve load [N]	3000,	1600
Module pitch [mm]	50	
Permeability [%]	70	
Colour*	white, grey, blue	

\* The colour shown can be different to the actual modules available
