

Move it with Forbo.

The ideal solution for cigarette production all along the line: Siegling Transilon conveyor and processing belts for the tobacco industry.

The path that tobacco products must travel from start to finish is a long one. And our belts are professionals in all the stages of production — primary as well as secondary! Special belts provide for smooth-running material flow and reliable processing. FDA-compliant polyolefin and polyester coatings are free of halogen and nitrogen, resistant to grease and food safe. As such, they satisfy all the currently valid pyrolysis regulations for direct contact with tobacco. Take advantage of our experience and our complete range of products for the tobacco industry. Simply the better solution: Siegling Transilon conveyor and processing belts.

As reliable as they are versatile.
